---

Now with Auto Update so it will update itself.

To get the Shadow Dash Beta, see [here](#)

**Shadow Logger MS** - version 1.21

[download](#)

Free, No Expiration,

most users will want to use Shadow Dash,

but Shadow Logger works on Android 2.1

Notes:

\* Linux is a tar files. You will need to extract them to a folder of your choice and start them using the .sh file.
